DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas G. Eschweiler on January 7, 2004.

Cancel the claims 16 – 25. ✓

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 15 are drawn to an ion implantation system, classified in class 250, subclass 396 ML.
 - II. Claims 16 – 25, drawn to a method of mass analyzing a ribbon shaped ion beam, classified in class 438, subclass 515.
3. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2)

Art Unit: 2873

that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case shallow implants with a relatively high dopant concentration.

4. During a telephone conversation with Thomas G. Eschweiler on January 5, 2004, a provisional election was made without traverse to prosecute the invention of ion beam apparatus, claims 1- 15. Affirmation of this election must be made by applicant in replying to this Office action. Claims 16 – 25 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Oath/Declaration

6. Oath and declaration filed on 6/25/2003 is accepted.

Information Disclosure Statement

7. The prior art documents submitted by applicant in the Information Disclosure Statement filed on July 28, 2003 have all been considered and made of record (note the attached copy of form PTO – 1449).

Allowable Subject Matter

8. Claims 1 – 15 are allowed.
9. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 10, for example which include a mass analysis system operable to receive the ribbon ion beam at an entrance end and deflect ions with the ribbon beam having charge – to – mass ratio in exit end and the mass analysis system having a field clamp located at one of the entrance end and exit

Art Unit: 2873

end, the field clamp operable to substantially terminate a fringing field associated, thereby reducing a distortion of the ribbon beam (claim 1); and a field clamp to one of the entrance end and the exit end of the coils and operable to substantially terminate fringing fields emanating from one of the entrance end and the exit end of the coils (claim 10).

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The closest prior art

Renau (6,635,880 B1) discloses an ion beam apparatus includes an ion source, a first magnet assembly, a structure defining a resolving aperture and a second magnet assembly.

Conclusion

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammed Hasan whose telephone number is (703) 306-0089. The examiner can normally be reached on M-TH, 7:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on (703) 308-4883. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-7724.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
